

# MindPlay Signals

## Signal Opportunities to Unlock Student Success

### Empower Educators to Celebrate & Support Each Student's Unique Strengths.

MindPlay Signals offers a comprehensive suite of screening tools and assessments for students in grades K-12. Within minutes, educators can:

- Inform instruction based on reading successes and challenges.
- Engage in data-informed conversations with the student's reading team, including families.
- Analyze and group students for instruction and intervention.
- Celebrate concepts students have mastered.

### Dyslexia Screener

Detect early indicators of dyslexia in K-3 students, signaling the need for additional support or professional screening.

### Benchmark Assessment

Establish a baseline measure of students' knowledge and skills at specific intervals throughout the year.

### Actionable Insights

Immediately accessible reports following each assessment allow guardians and educators to pinpoint a student's strengths and areas for improvement, providing a solid foundation for further instruction, goal setting, and progress tracking.

## Screening & Assessments that are Simple, Reliable, & Actionable.

Research-based tools to help create an accessible and supportive pathway to reading success for every student.

### K-3

Unlock potential and celebrate unique learning abilities.

In as little as 20 minutes, MindPlay Signals can help identify K-3 students who exhibit characteristics associated with dyslexia featuring:

**At Risk Indicators**      **Immediate Feedback**  
**Formative Data**        **Online Assessment**

### K-12

Unlock comprehensive reading skills analysis for student success.

In approximately 30 minutes, MindPlay Signals can identify the strengths and areas of growth in reading skills in grades K-12 assisting with:

**Support Educators**      **Detailed Reports**  
**Goal Setting**            **The “Big Five”**

Trusted and reliable screening and assessment tools are invaluable for educators and parents alike. By combining actionable insights with intervention strategies, we can support educators and parents in meeting the unique needs of each student.
